W14 EVEN	–	● 20 Jan · Biology POSSIBLE
W15 ODD	● 25 Jan · Biochemistry POSSIBLE	● 27 Jan · Physics POSSIBLE

Odd or even?

Count teaching weeks from 5 Oct (week 1, odd). The Christmas break does not count, so 11 Jan is week 13, odd.

December

Hospital introductions in week 11 or 12, announced in CSP. Week 12 probably has no labs.

No classes

Mon 26 – Wed 28 Oct and Tue 17 Nov. Christmas break 24 Dec – 10 Jan.

January

Most labs end by Christmas. Check with your lab before going in weeks 13–15.

Your usual week

MD1002	Medical Physics (Phy)	5
MD1003	General Anatomy	3
MD1004	General Biochemistry (GBc)	6
MD1005	Introduction to Clinical Skills and Practice (CSP)	3
MD1006	History of Medicine	2
MD1007	Greek Language I	4
Total		30

What it all means

α1 α2 α3 Lab groups

Three lab groups of about 20. Lectures are for everyone; CSP sessions and labs are by group.

GBc Bio Phy Labs

General Biochemistry, Medical Biology and Medical Physics labs.

CSP Clinical Skills and Practice

Introduction to Clinical Skills and Practice (MD1005): healthcare systems, taking a history, hand hygiene, vital signs, injections, BLS with a defibrillator. A 2-hour group session plus a Friday lecture for everyone. Your CSP instructor confirms which weeks the group sessions run.

Amph. B' Amphitheater B'

Where all theory lectures are. B' ("Beta") is Greek numbering for "second".

A1 B2.1 Greek levels

A1 for beginners (Tue 16–19), B2.1 for good speakers (Thu 16–19). The placement test decides.

ECTS Credits

1 ECTS ≈ 28 hours of work, classes and study included. Semester 1 is 30 ECTS.

From IMSOG

- ◆ 26–28 Oct (plus the 27th) makes a 5-day weekend, Sat 24 – Wed 28 Oct. Good time to travel.
- ◆ The Oxi Day parade on 28 Oct is worth seeing at least once.
- ◆ You won't have a lab every week; most labs finish by Christmas.
- ◆ Hospital introductions come in week 11 or 12. CSP will tell you when.
- ◆ Take the Greek placement test first. It decides A1 (Tue) or B2.1 (Thu).
